

WOMEN BUILD | 2026

Habitat homeownership creates strength, stability, and independence through shelter for families in our community. Our annual Women Build brings together friends and colleagues from across our community to raise funds, walls, and awareness - creating an affordable homeownership opportunity for a family in Greater Cincinnati.

Why women?

Women in our community are disproportionately impacted by the rising cost of housing. Women and children are more likely to be affected by poor living conditions and face more barriers to stable housing than men in similar economic situations.

- Men earn more on average than women, resulting in access to higher credit, better loans and better quality homes and neighborhoods.
- Unequal caregiving responsibilities limit a woman's ability to dedicate the necessary time to obtaining and maintaining consistent employment and decent housing.
- Single women are denied mortgages at higher rates than single men, despite the fact women are more reliable at paying back mortgages.

How does it work?

Over the course of a month, groups of women will join together to raise funds, walls, and awareness to help a single mother achieve her dream of homeownership.

No experience necessary. Volunteers work under the guidance of construction professionals, alongside other volunteers and future Habitat homeowners. Whether you are learning new skills or simply adding a few to your tool belt, this is a rewarding experience for all involved.
